

PRIME TIME

Kudos to those sticky, white plastic pore-strips for novelty factor, but when it comes to ridding blackheads for good, exfoliation is key. Look for products packed with fruit extracts to slough away dirt and grime, like Perricone MD Pre-empt Series Exfoliating Pore Refiner, which is great for anyone experiencing the first signs of congestion. If years have firmly set up shop, Caution Premium Hot & Cool Pore Pack Duo works by first exfoliating dead skin cells and clinging to impurities via a warming charcoal powder, before the soothing sensation of the second step, a mask enriched with glacial water to close pores.

ARIANA CORRAO

STATE

Lined by subtle for keeping their skin shiny and supple, skin lines that don't appear a lot of times are your new look to stay. Clear + Brilliant uses such lines that promise to help fight against skin issues. "Skin-able for all skin colors and ages, this is a faceted line used to address early signs of aging," says expert Katy Perry of Ina Medical, the distributor for Clear + Brilliant. "It also used to treat more medical concerns such as acne scarring and melasma." Its repeat water treatment (microscopic) means will work to reach your face and sub-dermal pores. "It's not for pregnant or nursing women, skin sensitivity for a few days. It's potentially worth a try, but later, skin looks clearer, brighter, smoother and more radiant."
